Email **[REDACTED]**

## Notice of Intent

**PART I. Please indicate the purpose of this application :**

Construction in the front yard of a 6-foot-high decorative fence with brick columns and black stainless-steel at Mobley Drive. The 15 ft requested setback allows the fence to be aligned with the existing neighboring fences.

**PART II. Please list all requested variances:**

6-foot-high decorative black stainless-steel fence with 6-foot brick columns in the front yard  
Requesting to place a gate closer than 25-ft ~~the Right Way~~

**Part III. Existing use of subject property:**

Residential

**Part IV. Proposed use of subject property:**

Residential

**Part V. Other Pertinent Information (List or attach additional information if needed):**

## Written Analysis

In details please address these Variance Criteria:

- a. Are there extraordinary and exceptional conditions or practical difficulties pertaining to the particular piece of property in question because of its size, shape or topography that are not applicable to other lands or structures in the same district.  
Yes. There are extraordinary and exceptional conditions pertaining to this property that do not apply to most other residential lots in the same zoning district.  
The property is a 2.7 acres of privately owned land located at the end of the street, outside of any subdivision, and directly adjacent to wooded and open areas.
- b. A literal interpretation of the provisions of this development code would effectively deprive the applicant of rights commonly enjoyed by other properties of the district in which the property is located.  
Denying this variance would therefore deny me the same reasonable ability to safeguard and enjoy the property as other homeowners in the district
- c. Granting the variance requested will not confer upon the property of the applicant any special privileges that are denied to other properties of the district in which the applicant's property is located  
No. Granting this variance will not confer any special privilege denied to other properties in the same zoning district.  
The request is based on unique site-specific conditions — a 2.7-acre lot
- d. The requested variance will be in harmony with the purpose and intent of this development code and will not be injurious to the neighborhood or to the general welfare.  
Yes. The special circumstances and conditions affecting this property do not apply generally to other properties in the same zoning district.  
Because of its size, location, and exposure to wildlife, the property experiences conditions that are exceptional and uncommon, justifying the need for a variance to construct a fence for protection
- e. The special circumstances are not the result of the actions of the applicant.  
No. The special circumstances and conditions are not the result of any action by the applicant.  
These conditions existed prior to ownership and are beyond my control
- f. The variance requested is the minimum variance that will make possible the proposed use of the land, building, or structure in the use district proposed.  
No. Granting the requested variance will not be detrimental to the public good or impair the intent or purpose of the City's zoning regulations.  
The fence will not obstruct traffic visibility, not interfere with utilities or drainage, and not negatively affect neighboring properties.
- g. The variance shall not permit a use of land, building or structures, which is not permitted by right in the zoning district overlay district involved.  
The property is a 2.7-acre private residential lot, situated at the end of Mobley Drive and bordered by wooded land. Due to its large size, open frontage, and wildlife activity, the property experiences frequent deer intrusion resulting in damage to fruit trees, flowers, and landscaping. These conditions are unique and not typical of other residential lots in the district.
