

Variance Request Application Packet

Applicant's Public Notice Requirements

The Code requires public notice of your Rezoning request, Special Use and Variance requests. The Community Development Department will tell you when and where the Planning and Zoning Commission and the Mayor and Council meetings will be held.

Newspaper: The City will publish a legal notice in the newspaper regarding your application and announcing the time and place of the public hearing. At least 15 days before the Mayor and Council but no more than 45 days prior to the date of the public hearing.

Sign Posting, Public Hearing Notice & Affidavit

Sign Posting: The applicant shall be required to post and maintain signs supplied by the City on or near the right-of way of the nearest public street, so as to be visible from the street for at least 15 days and not more than 45 days immediately preceding the date for the governing body's public hearing on the rezoning or special use application. It is your responsibility to post the signs and to maintain the signs during the posting period. Failure to post and maintain the signs continuously may prohibit consideration of the application at any scheduled public hearing. In the event the signs are not posted continuously, the City, in its sole discretion, may require the reposting and re-advertising prior to any future public hearing, for which the applicant shall pay an additional re-advertising fee. The City may also in its sole discretion, continue, hold, approve, or dismiss the application. Any dismissal under the provisions of this paragraph shall be with prejudice unless specifically noted as being without prejudice by the City.

Public Hearing Notice: At least 15 days before the Planning & Zoning Commission's public hearing, you are to mail a notice to all persons owning property within 200 feet of the property that is the subject matter of the zoning change. The notice is to state the time, place and purpose of the hearings, and include a page size copy of the sketch plan submitted with the application.

Affidavit: Prior to the public hearing you must also submit an affidavit with a copy of the notice to the Community Development Director listing the property owners and certifying the date that the notices were mailed (form attached)

City Actions

The Community Development Department will date your application when it is received. The Community Development Department has five (5) working days in which to determine that your application is complete or to return it to you for additional information. The application will not be scheduled for public hearing until it is complete. The Planning Commission's public hearing will be held at the time advertised. At the public hearing, you will be allowed to speak first in order to present the application. Others in support of the application may then speak, followed by those in opposition to the application. You may then be allowed time for rebuttal if adequate time remains. Rebuttal must be limited to points or issues raised by opponents to the application at the hearing. After the Planning Commission has made their recommendation, the Mayor and City Council will consider approval or denial of the application at their own public hearing. You or a representative thereof with authority to make binding commitments to the City with respect to any stipulations that may be offered in connection with such application shall attend the meetings, and make a presentation following the same procedure as the Planning Commission hearing. The final action taken by the Mayor and City Council will be indicated on the application form, along with any stipulations that they impose on the property if approved, and a copy will be given to you as official notice of their final action.

Notice of Intent

PART I. Please indicate the purpose of this application :

Purpose of this application is to request to reduce the northern side setback from 20 ft to 10 ft. Reducing this setback will allow more buildable area so that the applicant can construct an approximate 4000 square foot addition

PART II. Please list all requested variances:

Setback Variance (Reduction)

Part III. Existing use of subject property:

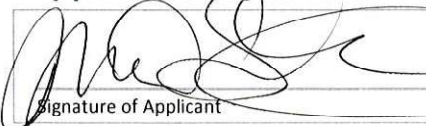

The property is currently being used for specialized metal fabrication

Part IV. Proposed use of subject property:

Proposed use of the property will be the same as the current/existing use. GTI is seeking to expand the building size in order to accommodate additional shop area and office space.

Part V. Other Pertinent Information (List or attach additional information if needed):

Written Analysis In details please address these Variance Criteria:

- a. Are there extraordinary and exceptional conditions or practical difficulties pertaining to the particular piece of property in question because of its size, shape or topography that are not applicable to other lands or structures in the same district.
Yes. The site is currently restricted by stream buffers in the rear. That along with the topography, reducing the side setback would be a more viable option so that the building addition can be accomplished.
- b. A literal interpretation of the provisions of this development code would effectively deprive the applicant of rights commonly enjoyed by other properties of the district in which the property is located.
- c. Granting the variance requested will not confer upon the property of the applicant any special privileges that are denied to other properties of the district in which the applicant's property is located
No. Other properties in the area have significantly larger buildings/spaces than does the applicant.
- d. The requested variance will be in harmony with the purpose and intent of this development code and will not be injurious to the neighborhood or to the general welfare.
Yes. This variance will not have any negative impact on the surrounding areas or properties.
- e. The special circumstances are not the result of the actions of the applicant.
- f. The variance requested is the minimum variance that will make possible the proposed use of the land, building, or structure in the use district proposed.
Yes. A variance setback will make possible the building expansion needed
- g. The variance shall not permit a use of land, building or structures, which is not permitted by right in the zoning district overlay district involved.
No. The setback variance will only allow accommodation for a building addition as permitted and allowed by code
