Tax and License Administration

A V E N U
INSIGHTS & ANALYTICS

Last year, we processed more than $1 billion in payments for local governments.

Our technology and team of tax experts provide you with greater control over revenues without having to make resource and infrastructure investments. We also provide detailed online reporting to enable more timely decision making and appropriate audit planning. There's no need to purchase or maintain tax administration software, invest in technology for records retention and disaster recovery, or absorb basic paper, printing, and postage costs.

How Avenu Simplifies Revenue Management

ADMINISTRATION
Operational Support for Your Office
Manpower doesn't have to bottleneck your government's capabilities. Avenu's administration team can take on the heavy lifting of data entry, billing, application and claims processing, funds distribution, and customer service.

Benefits of Tax and License Administration:

- Target critical business processes such as data entry and processing, billing services, application and claims processing, compliance, and taxpayer support services

- Provide detailed reporting to enable more timely decision making and appropriate audit planning

- Alleviate the need to purchase and maintain tax administration software

- Secure online reporting with detailed transaction accounting and management reviews

Tax and License Administration services include:

- **Sales and use tax**

- **Business/Occupational license tax**

- **Business tax**

- **Local taxes such as alcohol, gas, lodging, rental/lease, tobacco, and severance**
